

OUR OFFERINGS

ORACLE FUSION FINANCIALS CLOUD

Every CFO's vision is to get a quicker month end close with accurate and relevant management reports. Oracle's Cloud Fusion application helps bring this dream to a reality, it adds superior quality of collaboration, automation, and efficiencies at the fingertips of the entire finance organization. Thus now enabling impeccable and rich customer experience by eliminating paper, email or phone follow ups. It further develops an organizational culture for self-service next generation applications. Additionally, it enables a framework for sophisticated governance and controls for an organization that is planning to grow either organically or dynamically.

BUSINESS BENEFITS

Adoption to Cloud

Infosenseglobal leaders collaborate with CFO's, CIO's to develop a business case comprising but not limited to a TCO, ROI, ERP Roadmaps, Blueprints etc. that deem necessary to rationalize a cloud implementation. Furthermore, we assist the IT and business leaders in providing guidance on the implementation strategy i.e. whether it should be fully comprehensive or hybrid (co-existence).

Fixed Scope & Low Cost

Infosenseglobal Fixed Scope offerings for Oracle Fusion Financials Cloud resolves the issues of lengthy implementation process, eliminates risk and the cost overrun associated with it thus giving you total peace of mind.

Based on Best Practices

Our implementation team comprises of Cloud financial implementers, CPA's, Technical Architects and are well versed with industry standards. These experts have experience in implementing and complying with global accounting standards, multiple legislative accounting needs, various industry requirements, and geographic localization tax necessities, etc.

Configuration Templates & Accelerators

Our pre-configured excel based templates will help in the implementation to move at an agile and nimble pace. Our cloud accelerators are fundamentally based on our several years of experience of EBS integration and migration.

Agile & Rapid Implementation

A full life cycle Cloud Financials implementation can be achieved as early as 14 – 16 weeks. We partner with our customers to provide entire life cycle implementation that is robust and catered to their business needs.

Cloud Certified professionals

Our teams consist of Fusion Financial, Project Management & Oracle Certified professionals with strong domain knowledge, implementation skills and years of delivery experience across the Globe.
